-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 24 May 2005.
- 2a) ☐ This action is **FINAL**. 2b) ☒ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

Response to Amendment

1. This action is in response to Applicants' amendment and arguments received on May 24, 2005.

Election Restriction

2. Restriction to one of the following inventions is required under 35 U.S.C. 121:

Group I. Claims 5 and 11-21, drawn to a strip of fasteners, classified in class 411, subclass 433.

Group II. Claims 7, 9, 22, 26, 28, 29, drawn to a fastening apparatus, classified in class 227, subclass 120.

Group III. Claims 25, 27, drawn to a fastening device and strip of fasteners in combination, classified in class 227, subclass 120.

3. The inventions are distinct, each from the other because of the following reasons:

Inventions of Group I and Group II are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, the invention of Group I has separate utility such as its capability to be driven from a fastening device without the grooved bore disclosed in Group II. See MPEP § 806.05(d).

Inventions Group III and Group II are related as combination and subcombination.

Inventions in this relationship are distinct if it can be shown that (1) the combination as claimed does not require the particulars of the subcombination as claimed for patentability, and (2) that the subcombination has utility by itself or in other combinations (MPEP § 806.05(c)). In the instant case, the combination as claimed is not limited to the fastening device disclosed in the

Art Unit: 3721

subcombination of Group II, as the fasteners of the combination of Group III are capable of use in an alternative fastening device. The subcombination has separate utility such as driving fasteners without the ring and tubular portion, as disclosed in the combination of Group III.

Inventions Group III and Group I are related as combination and subcombination.

Inventions in this relationship are distinct if it can be shown that (1) the combination as claimed does not require the particulars of the subcombination as claimed for patentability, and (2) that the subcombination has utility by itself or in other combinations (MPEP § 806.05(c)). In the instant case, the combination as claimed is not limited to the strip of fasteners disclosed in the subcombination of Group I, as the loading device of the combination of Group III are capable of driving fasteners without the ring and tubular portion of Group III. The subcombination has separate utility such as use in loading device without the grooved bore disclosed in the combination of Group III.

4. Because these inventions are distinct for the reasons given above and the search required for Group I is not required for Groups II and III, restriction for examination purposes as indicated is proper.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Examiner has assessed claims 22, 25, 26 and 29 as independent claims, despite their dependency on claim 11, as the limitations disclosed in these claims are drawn to a separate invention, other than the invention disclosed in independent claim 11, and fail to further limit the structure disclosed in claim 11.

Art Unit: 3721

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Conclusion

5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Gloria R. Weeks whose telephone number is (571) 272-4473. The examiner can normally be reached on 8:30 am - 7:00 pm Monday-Thursday.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Rinaldi I. Rada can be reached on (571) 272-4467. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
